93.20 %

## Experience

### Salesforce Intern

MAY 2025 – JULY 2025

Smartbridge/AICTSL

Remote

- Completed the Salesforce Virtual Internship Program, gaining strong understanding of Salesforce admin and developer concepts, and Agentforce.
- Participated in 2-hour daily Virtual Instructor-Led Training (VILT) sessions covering Salesforce Admin, Developer, and Agentforce Champion topics.
- Engaged in personalized mentor "Ask Me Anything" (AMA) sessions for guidance on hands-on tasks and challenging concepts.
- Utilized a custom TrailMix for structured learning and tracked progress, aiming for 100 % completion of modules, quizzes, and assignments.

## Projects

### RAKT | PHP, MySQL, HTML/CSS, Apache, Nginx

2024

- Developed an Blood Bank Management System to automate the process of Blood Donation and Blood Requests.
- Implemented Email Integration For Blood Request and Donation Confirmation
- Created a Linux virtual machine to run on Google Cloud so that the program is able to run everyday from the cloud.
- Used Environment Variables to make each System Unique

### Diabetes Prediction System | Python, Jupyter Notebook, Scikit-learn, Streamlit

2025

- Developed a machine learning model to predict diabetes risk using the Pima Indians Diabetes dataset.
- Implemented data preprocessing, model training, and evaluation within a Jupyter Notebook environment.
- Built a Streamlit web application to provide a user-friendly interface for inputting patient data and displaying prediction results.
- Ensured modularity and scalability by separating concerns between data processing, model inference, and web interface components.

## Technical Skills

Languages: Python, C++, SQL, JAVA, C

Developer Tools: VS Code, Google Cloud Platform, Amazon Web Services, Microsoft Azure, Github

Technologies/Frameworks: Linux, Jenkins, GitHub

## Leadership / Extracurricular

### Marathi Club
